

Stella Peng	Product Designer ruocanpeng.com	stellanotfound@gmail.com in/stellapengrnr
EXPERIENCE	TikTok Product Design Intern Summer 2026	Shaped core social experiences across Story, Friends, and campus relationships, defining interaction patterns across relationship states, and content consumption within TikTok's Design Foundation team. Co-built "Mini TikTok" with design engineers, a locally runnable build of the app, then used AI coding tools to ship 20+ hi-fi prototypes on real product code that aligned PMs and engineers before build.
	Desai Accelerator Product Design Intern Summer 2025	Shaped product strategy for 6 startups across 0 to 1 and 1 to 10 stages, translating unfamiliar business models and user needs into product direction through UX audits, competitive analysis, and scalable design systems, driving up to 75% higher user activation and 2× faster iteration .
	AskSia.AI Product Designer 2025 - 2026	Drove a 22% increase in new-user activation and \$45K in incremental revenue by translating AI capabilities into intuitive student workflows. Increased task completion by 45% by simplifying information architecture across core learning flows, consolidating fragmented navigation into a unified system.
	Michigan Engineering Social Media Intern 2024 -2025	Drove an 81.7% YoY increase in reach through short-form video and visual storytelling that translated complex engineering concepts into accessible narratives.
EDUCATION	University of Washington	M.S. in HCI + Design Summer 2027 (Expected)
	University of Michigan	B.A. in Art & Design, Minors in UX & Entrepreneurship Winter 2025 GPA 3.9/4.0
LEADERSHIP	UM Integrated Product Dev Product Design Lead 2024 Fall	Owned product direction and design for an IoT product system, spanning ID and user experiences; partnered with engineers from concept to prototype, earning 2nd place at final showcase.
SKILLS	Design & Prototype	AI-native design, agentic workflows, AI prototyping, interaction design, design systems, UX/UI, motion.
	Tool & Software	Claude Code, Codex, Cursor, Figma, Adobe CC, HTML/CSS/JavaScript, Arduino, Raspberry Pi
